**Raffles Opens Integrated Multi-Disciplinary
Medical Centre in the Heart of Orchard Road**

Singapore, 23 June 2015 – **RafflesMedicalGroup** ('Group'), a leading integrated private healthcare provider in Singapore and the region, opens a multi-disciplinary medical centre at the newly-renovated Shaw Centre right in the heart of Orchard Road.

The newly opened **RafflesMedicalCentre** at Shaw Centre brings the Group's new-concept medical solution which offers a full spectrum of health care services to our patients. Occupying over 17,000 square feet, **RafflesMedicalCentre** offers quality medical services to local and foreign patients, tourists, as well as corporate clients and insurance companies.

Services offerings at **RafflesMedicalCentre** include:

- **RafflesSpecialists**: comprehensive range of specialist services from internal medicine, neurology and cardiology to general surgery and orthopaedics, eye, ENT (ear, nose & throat), obstetrics & gynaecology, and fertility management
- **RafflesMedical**: family medicine services
- **RafflesHealthScreeners**: health screening services
- **RafflesDental**: dental care services
- **RafflesChinese Medicine**: Traditional Chinese Medicine services

This also marks **RafflesChineseMedicine** first foray outside its main clinic in **RafflesHospital**. Since it started in 2005, demand for TCM services has grown as both Chinese and non-Chinese populations are turning to TCM for complementary medical services. Today, 60 per cent of **RafflesChineseMedicine**'s patients are locals across different races, while 40 per cent are international patients.

Founded on the institutional group practice model and Raffles' strong core values, **RafflesMedicalCentre** allows family medicine physicians, specialists across different disciplines and allied health workers of the Group to work together to offer patients a seamless experience of the best treatment option and team-based care for the total healthcare needs of our patients.

Commenting on the development, Dr Prem Kumar Nair, Managing Director for Singapore Healthcare of **RafflesMedicalGroup** said: “We chose the Orchard/Scotts area for our first multi-disciplinary medical centre outside of Raffles Hospital because of its prime location. **RafflesMedicalCentre** is well-positioned to meet the growing demands of locals, expatriates and tourists seeking sophisticated and quality healthcare in Singapore.”
