RafflesMedicalGroup Leads in Booster Jab Campaign

Singapore, 11 October 2021 – **RafflesMedicalGroup** (the Group) today announced the start of a “We Care” public campaign to encourage those eligible to get their booster jabs.

This comes after the Ministry of Health (MOH) recommends COVID-19 vaccine booster shots extended to those aged 30 and above, healthcare and front-line workers, as well as those in institutionalised settings and residential care facilities.

In an address to the nation on 9 October 2021, Prime Minister Lee Hsien Loong had said that booster shots can cut risk of severe infection to seniors by more than 10 times.

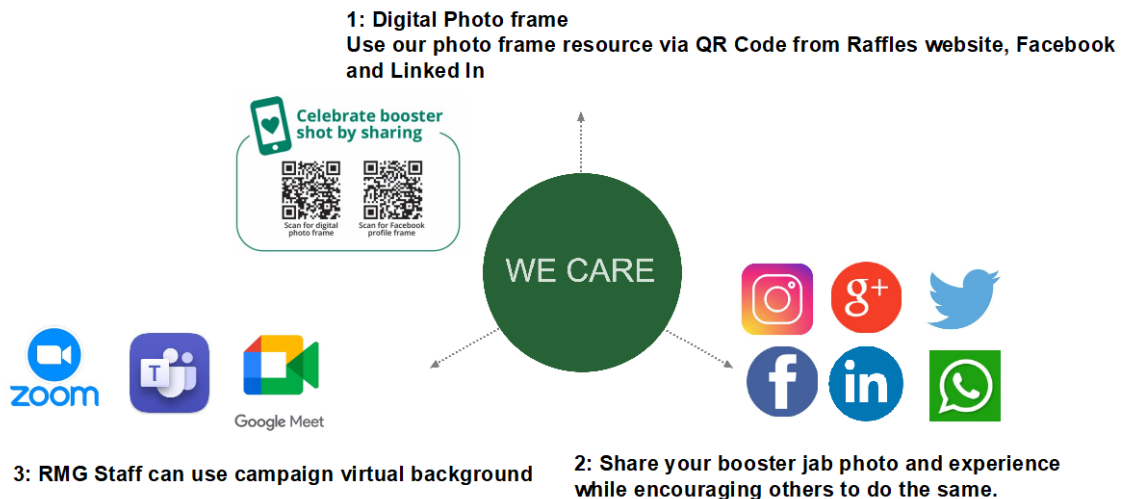

“Since the start of our fight against COVID-19, we have made it our top priority to support the national strategy. As we move from Zero COVID to Living with COVID, we are still in a footrace against the pandemic, so it is imperative that we do not let down our guards down,” said **Dr Kenneth Wu, Deputy Managing Director, Singapore Healthcare, RafflesMedicalGroup.**

The campaign kicks off with the leadership of **RafflesMedicalGroup** social sharing on hashtag #boosterjab, #wecareraffles to share and pass the message on social media.

Members of the public and staff can download digital photo frames from the QR codes on the Group's website, Facebook, Instagram, and LinkedIn to join in this campaign in support of the booster jab and national COVID strategy.

LET'S JOIN IN THE CAMPAIGN

“In a pandemic, the communication we need most is care. Caring for people is in our DNA. It is appropriate that we lend our voice by extending our *We Care* ethos to a campaign to encourage people to care for themselves, their loved ones, and the community by taking necessary protection against COVID-19,” added Dr Wu.

Staff are encouraged to change their virtual background to the theme of this campaign.

Phase 2 of the campaign in November will see physical photobooths and selfie stations at the Group's select vaccination centres to enable members of the public to celebrate and share about their COVID-19 vaccination and booster jabs while encouraging others to do the same.
