Singapore, 6 November 2023 – Financial performance of the **RafflesMedicalGroup** moderated in Q3 2023 to **S\$12.4** million as compared to the exceptional result of **S\$38.0** million in Q3 2022.

The Group's core operations in Singapore remain strong and profitable. The Transitional Care Facilities (TCF) at Expo has been extended to February 2025.

The discontinuation of COVID-19 activities affected Singapore operation's profitability. Cost inflation also eroded the Group's margin.

Patient visits to the Group's China operations increased with the cessation of COVID restrictions early this year. Although revenue has improved, our hospitals in Shanghai and Chongqing are still in the developmental phase and incurring gestational costs.

The Group has commenced right-sizing and rationalising the China operations to achieve better operating efficiencies.

RafflesHealthInsurance (RHI), the Group's health insurance arm, also registered higher claims in Q3 2023.

The Group generated cash from operations of **S\$174.3** million for the 9 months ended 30 September 2023 and its balance sheet remains strong with a net cash position of **S\$239.7** million.

3. Outlook

The Board remains cautious about the dynamic market development in the geographies in which we operate. The uncertain global economic situation combined with higher inflation and interest rates remain a substantive concern. Barring unforeseen circumstances, the Board expects the Group to remain profitable for the rest of the financial year.

“The Group plans to grow and expand our patient base by offering integrated healthcare services solutions that are tailored to meet our clients’ needs. We are focused on growing in a value accretive manner and improving the operational leverage of our existing businesses,” said Dr Loo Choon Yong, Executive Chairman, **RafflesMedicalGroup**.
