Say Hello to Youthful Skin with Pico Laser

Raffles
Skin & Aesthetics

What is Pico Laser?

Pico laser is a non-invasive treatment that uses ultra-short pulses of concentrated energy to target common skin imperfections.

At Raffles Skin and Aesthetics, we use PicoCare 450, an FDA-approved machine that is safe for use on both the face and body.

What Can Pico Laser Treat?

Pico laser can treat a wide range of skin conditions. They include:

Atrophic Scars

Acne scars, chicken pox scars, etc.

Epidermal Benign Pigmented Lesions

Freckles, age spots, sun spots etc.

Dermal Benign Pigmental Lesions

Melasma, ABNOM etc.

Skin Rejuvenation

Uneven skin tone, large pores, fine wrinkles etc.

Tattoo Removal

Includes black, blue, green, yellow, red ink
